Guenette--Rivest.

On Monday, April 12, at St. Joseph's Church, Spruce Grove, by Rev. Father O'Halloran, pastor, Miss Simone Guenette, daughter of Mr. and Mrs. Joseph Guenette, was united in marriage to Mr. Romeo Rivest, son of Mr. and Mrs. Joseph Rivest of Stony Plain. After the ceremony a reception was held at the home of the Bride's parents, Spruce Grove, where a large party of friends and acquaintances sat down to a sumptuous repast. The happy couple left in the evening to spend their honeymoon at Banff.

FORRENT--Farm at Edmonton, Boath, principally catering with milk and farm products to campers and Redoubt camp. Apply J. A. Barrie, 11507 87th St., Edmonton, phone 72091.

No Change in Alberta Constituencies.

The redistribution committee of the Alberta Legislature failed to agree among themselves as to what constituencies should be dismantled or wiped off the political map and which of the members of the Legislature should be asked to help legislate themselves out of public life. The committee therefore asked to be discharged.

Thus ends the much advertised plan to put through the redistribution bill which would cut down the membership of the Legislature and save money by reducing the number--not the amount--of the sessional indemnities. The next Legislature is to consist of the same number of members as the present one, and they are to draw indemnities at the same rate.

LOCAL NEWS.

Mr. Elliot and family moved down this week to the McKinlay cottage on 1st Street west.

'Bob' Stoker arrived down from Onoway on Saturday.

Miss E. M. Hartley, from Jasper, was visiting old friends in Stony over the week end.

Mr. and Mrs. Albert Eoblich and son were visiting with Mr. and Mrs. Schindler for the Easter holidays.

The Mayor and Mrs. Wight were host and hostess. Thursday evening host to a party of Stony's prominent citizens, at their home on Railroad Ave.

A large and enthusiastic crowd of friends were in attendance. Friday night, at the chateau, Mr. and Mrs. Sam Zucht on their return to Stony Plain. A varied program of musical numbers was broadcasted by the assembled 'musicians' after which Mr. Sam did the business thing by the serenaders.

'After several weeks' wait, a good movie picture was shown at Wudel's Hall Monday night. The crowd in attendance was fairly large and gave evidence of its appreciation of the pictures thrown on the screen.

A sitting of the District Court will be held in Stony Plain Wed. April 28.

Special progress is being made on the arrangements for the coming banquet to be held by the Curlers' Club. The officers feel that the occasion should be graced by the presence of half-a-dozen pipers, and negotiations are now on to hire the pipe band of the Seemore Highlanders, headed by Skibo Fitzdoodle.

The threat of the redistribution of seats in the legislature which would have eliminated the constituency of Stony Plain, has passed off, and the local politicians are now resting easy following their anxious few days.

Captain Werner, the local Steamship agent, had quite a large flock of visitors on his hands Friday morning last. These were composed of prospective settlers brought from Europe by the Norddeutscher Lloyd Co. and consigned to Alberta. Some had come here on contract to farmers in this district, and those not billed for positions had these quickly found for them thru the untiring efforts of Mr. Werner, who is to be commended for his services given free to these strangers.

\$1 bills were a scarce article in Stony on Saturday last. Early in the day change-hunters were after the elusive bill, and the local bank was soon depleted of these, making it rather inconvenient for the merchants when the large crowd of shoppers arrived in the afternoon.

RED ROSE TEA

"is good tea" TEA

Over 30 years a standard wherever good tea is liked.

Stop The Flood

The problem of erecting an effective dam to stem the flood of United States publications, already large and steadily rising, pouring into Canada and tending to Americanize our social thought, national ideals and policies, has for some time occasioned serious consideration on the part of Canadian publishers, and is now giving concern to people who are in no way identified with the publishing business.

A large section of the Canadian people not strongly opposed to restrictive policies based on the protective principle, while others dislike the idea of placing a ban on the free interchange of reading matter, and all are more or less averse to the adoption of any policy which might be interpreted as unfriendly by our next door neighbors. But, as pointed out in last week's article in this column, the situation has become a very serious one not only for Canadian publishers, but for Canada as a national entity.

Prohibition of United States publications is not to be thought of, except in the case of those which overstep the bounds of morals and decency in their flagrant attempts at sensationalism to whet the appetites and appeal to the morbidness of their readers. The United States should itself place a ban on these, and if it fails to do so there is no reason in the world why Canada should not protect itself by taking such action. Such publications are not necessary to any people. They serve no good or useful purpose, and are wholly harmful.

A suggestion recently advanced and now being widely discussed is that, while not placing any obstacle in the way of United States papers and magazines entering Canada, a tax should be imposed on the advertising matter contained in them. Canada is used as a "dumping" ground for these magazines and papers largely for the purpose of increasing circulation, thereby boosting advertising rates and revenue for the publishers and providing an avenue through which United States manufacturers and others can attractively place their wares before the Canadian public. These magazines are sold in Canada at a price considerably below the cost of production, and tons of them are carried annually by the Canadian post office department at an actual loss to the Government.

That these American publications are circulated in Canada solely in order to obtain additional distribution of these advertisements is fairly well demonstrated by the fact that in their literary contents little or no attempt is made to cater to the views and tastes of Canadian readers. They are "American," in the United States acceptance of that word, through and through.

Take the current issue of one of the weekly publications which has a very large circulation in Canada. It consists of 240 pages, printed on book paper, and each copy weighs over a pound and a half. It retails for five cents, or less than the cost of the white paper. Of the 240 pages, 34 are devoted to reading matter and illustrations all, with the exception of the front cover, printed in black ink. The other 146 pages are advertisements, and 64 of these are full page advertisements printed in all the colors of the rainbow, and then some—reds, blues, greens, purples, browns, yellows, pinks, navies and varying shades and combinations of these colors. In a word, this magazine is mainly an advertising catalogue, and a beautifully attractive one at that, of United States goods.

If all this advertising matter entered Canada as a catalogue, or as straight advertising matter, thousands of dollars would have to be paid on it in Customs duties, but coming under the guise of a magazine it is practically duty free. And in addition the Canadian post office distributes a large percentage of it for a purely nominal sum. It would cost these United States advertisers millions of dollars annually to themselves print and distribute this matter in Canada.

Therefore, it is argued, and with reason, that while United States magazines should still be allowed free entry into Canada, a tax should be imposed on the advertising matter contained in them somewhat comparable to the amount that would be collected if such advertising was sent in as such and not as part of a magazine.

The effect, of course, would be a decided decrease in the number of such publications sent into Canada because the publishers, having to pay this tax, would be obliged to sustain the loss, or increase their subscription price in this country to cover it, and circulations would automatically drop. If the tax did not have this effect, then it would at least increase our national revenues.

Canadians may naturally object to paying largely increased prices through Customs duties imposed on foreign-made articles they require, to purchase, and on Canadian-made goods the price of which is advanced under cover of tariff protection, but they are not likely to object to a tax being placed on the advertising propaganda of United States concerns canvassing for business in the Dominion.

Children Cry for

Fletcher's CASTORIA

MOTHER:—Fletcher's Castoria is especially prepared to relieve infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

Be sure imitations, always look for the signature of **Dr. J. C. Fletcher**. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

House Adopts MacPhail Motion

Resolution to Produce Productive Work For Penitentiary Inmates. After brief debate, the house at Ottawa adopted a resolution moved by Miss MacPhail, that the administration of penitentiaries be amended to provide:

(1) Sufficient productive work to keep the inmates employed;

(2) That a share of the proceeds go to dependents, and in case of no dependents such share to be held in trust until release.

Miss MacPhail moved a similar resolution last session, but it was talked out.

Hon. Ernest Lapointe, minister of justice, supported the resolution, which was adopted without opposition amid applause.

Miss MacPhail explained it was her purpose to provide only for the production of goods needed by the Federal Government.

The resolution had been presented last year and had received very favorable comment. She believed it would have been adopted if the 6 o'clock adjournment had not arrived too soon.

ALWAYS TIRED OUT

People Who Feel Like This Need the Help of A Tonic

The physician defines a tonic as a medicine that increases the strength and gives vigor to the system. That is why Dr. Williams' Pink Pills are a real tonic. "Thousands of men and women are ailing today, not sick in bed, but without ambition to do a full day's work, though they are forced to keep on. They are always tired or nervous, do not sleep well, and awake in the morning unrested. Many have headaches, backaches and stomach trouble. Such people need the tonic sold by Dr. Williams' Pink Pills. The beneficial effects of this medicine reaches the whole system. Dr. Williams' Pink Pills do more than relieve the symptoms—they remove the cause."

Mrs. E. Virginia Gray, Toledo, Alta., has proven the value of this medicine and says—"It can sincerely recommend Dr. Williams' Pink Pills for a tired and run-down condition of the system. I have followed the nursing profession for a number of years and after a few weeks of hard or trying cases I take two or three boxes of Dr. Williams' Pink Pills, and always with the very best results. The pills also proved a great boon to my daughter at a trying age, and I have seen splendid results follow their use in other cases."

Dr. Williams' Pink Pills are sold by all medicine dealers, or sent by mail at 50 cents a box by The Dr. Williams Medicine Co., Brockville, Ont.

Through Service For Steamship Passengers

Canadian Pacific Railway Inaugurates Through Tourist Sleeping Car Service

For the convenience of western passengers enroute to the Old Country, the Canadian Pacific Railway have inaugurated a through tourist sleeping car service from Winnipeg to Saint John, N. B.

These cars will leave Winnipeg on "The Imperial" at 10:00 a.m. every Tuesday until April 20th, providing through service to the ship's side at Saint John.

This service will prove extremely popular with passengers from the prairie provinces, eliminating all dog, changing trains at Montreal.

The ease with which corns and warts can be removed by Holloway's Corn Remover is its strongest recommendation. It seldom fails.

Advertising His Profession

A campaigner was constantly interrupted by a man in the crowd who kept shouting out, "Liar!" After about the twentieth repetition the speaker paused and fixed his eyes on his tormentor. "If the gentleman who persists in interrupting," he said, "will be good enough to tell us his name instead of merely shouting out his calling, I am sure we shall be all very much pleased to make his acquaintance."—Christian Register.

The Oil for the Farmer.—A bottle of Dr. Thomas' Electric Oil in the farm house will save a journey to a doctor. It is not only good for the children when taken with colds and croup, and for the husband who suffers from pains and aches, but there are directions for its use on sick cattle. There should always be a bottle of it in the house.

A man is sometimes compelled to pay up with those he does not love—pawbrokers, for instance.

Minard's Liniment for dandruff

W. N. U. 1824

Proved safe by millions and prescribed by physicians for

Colds Headache Neuritis Lumbago
Pain Neuralgia Toothache Rheumatism

DOES NOT AFFECT THE HEART

Safe

Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark registered in Canada of Bayer Manufacture of Hoechstwerke of Sauerbrunn (Austro) Sauerbrunn. It is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

A Queer Family Group

Chickens, Deer and Cat Live Together in Kansas Zoo. Perhaps the queerest family group lives in the Atchison Zoo, Kansas. In a pen live Dixie, buck deer; six chickens, and a big yellow alley cat. At night the deer curls up in its shelter and the cat and chickens hover in close proximity absorbing the warmth from the deer's body.

At feeding time the deer pushes its muzzle into the feed trough and then lets the chickens pick the bits of bran and grain from its face. And the cat has forgotten how to wash its face and hands. Dixie gives the cat a thorough tongue bath regularly.

A Foe to Asthma. Give Asthma half a chance and it gains ground rapidly. But give it repeated treatments of Dr. J. D. Kellogg's Asthma Remedy and it will fall back even faster. There is no halfway measure about this remedy. It goes right to work and drives asthma out. It reaches the most breeding passages and leaves no place for the trouble to lurk. Have it by you for ready use.

London's Oldest Industry

Whitechapel Foundry Has Been Casting Bells For Over 600 Years. Probably the oldest industry in the metropolitan area of London is that of making church bells. A foundry in Whitechapel has been casting bells for over six hundred years, and is still so supreme that the whole world goes to it, or in another almost equally old firm at Dorking on the outskirts of London, when a reliable and true peal or carillon is to be constructed.

Cleans Like China

When you use SMP Enamelled Ware, you never need to scrape, scour and scrub the way some wares demand. Hot water, soap, a cloth—that's all you need to clean them. It washes like china, has the cleanliness and surface of china, but wears like steel. Don't be the slave of your cooking ware; equip with clean, pure sanitary, lasting

SMP

UNITED SUPPLY CO., Dept. 41, TORONTO, 3

Canada Now Occupies A Prominent World Position As Regards The Poultry Industry

With rather startling suddenness Canada has sprung to a prominent position with regard to her poultry and its industry. Prior to a couple of years ago Canadian birds had never been exhibited abroad. After showings at the International Poultry Congress in Spain and the British Empire Exhibition in England, no trouble was experienced in bringing about a unanimous decision to hold the international poultry show in the Dominion in 1927, for which preparations are now being made. At the same time, Canadian birds came into demand for the improvement of stock, and they are now going abroad to the value of, at times, \$50,000 a year. Within the past couple of months a consignment of ten cockerels, valued at \$400, left British Columbia for Denmark, and a shipment of fifty Wyandottes, sent from Ontario to Holland, being consigned to the Dutch Government there.

Progress has been rapid and is still continuing. A great number of poultry is being kept on farms throughout the Dominion every year and the production of eggs is steadily rising. Poultry in Canada totalled 48,133,969 head in 1925 as against 47,538,130 in the previous year, and the production of farm eggs was 24,778,387 dozen worth \$27,950,240 as compared with 212,618,885 dozen worth \$50,322,439 in 1924. The greatest progress is being evidenced in the western provinces where one of the tendencies in the movement towards diversification in agriculture has been a steadily increasing interest in eggs and poultry production, and where a dependence upon imports in this regard has been changed to the engagement in a considerable export trade. Whereas there were but about thirteen million head of poultry in the western provinces in 1918, there were more than 20,500,000 head in 1925.

Western Canada, in particular, has been most progressive and energetic in meeting the problem of marketing with regard to poultry and eggs through co-operative organization. All the provinces now have their government supervised systems of collection and disposal. In Manitoba, through this co-operation, the province, which was importing these products a few years ago, is now exporting voluminously to Eastern Canada and the United States. Poultry exports from Saskatchewan, also effected on the co-operative system, doubled between 1922 and 1925 and showed further increase last year. In Alberta, which rapidly left its dependence behind it and now exports upwards of 60,000 cases of eggs annually to England, Scotland and other countries, a poultry and egg post committed operations in November last. Government marketing service stations have been established at Edmonton, Calgary and Lethbridge, where eggs and poultry are sent, and graded, the shipping being sent 50 per cent. of the value of the shipment.

Canada and Japan

New Record For Foreign Trade Set Last Year.

The annual report of the Japanese consul at Vancouver shows that the trade between Canada and Japan increased more than \$3,000,000 during 1925, setting a new record for foreign trade between the Orient and Canada. The total volume of trade was \$32,155,000, of which \$15,462,278 was in exports from Canada and \$7,962,029 in imports from Japan. The increase in exports alone was nearly \$2,000,000 and in imports the increase was more than \$1,000,000. Recent trade volumes have been—1924, \$30,274,100; 1923, \$27,735,334.

Early Egyptians Used Parasols—Parasols were used by the ancient Egyptians and they are often represented on Egyptian monuments. In the year 1550 a new style of parasol came into use in England, said to have been designed by the Duchess of Rutland.

Greater London contains more people of British stock than Canada, New Zealand, South Africa, British East and West Africa, India, and the British West Indies all combined.

W. N. U. 1694

Shipping Poultry Abroad

Fame of Canada As a Poultry Raising Country Has Spread Over the World

Carrying the name and fame of Canada as a poultry breeding country literally to four corners of the earth, pure-bred birds have been shipped by Canadian breeders within the last six weeks to the Argentine republic, Japan, England, the Fiji Islands and Australia, in addition to many parts of the United States.

Commenting on a recent sale made in England, Prof. E. A. Lloyd, professor of poultry husbandry at the University of British Columbia and secretary of the B.C. Record and Performance Poultry Breeders' Association, which organization made the shipment, states that fifty barred rock hens with records of over 200 eggs in one year and six polished cockerels from hens with records over 250 eggs were selected to fill the order. The birds were on the Atlantic during the recent terrible storm yet they reached England in perfect condition and the hens commenced to lay the day after arrival.

Lord Allenby On Canada

Says: This Country Can Fill Every Conceivable Need For Human Comfort

"If I was thinking of emigrating I should look to Canada as a very desirable country to come to," said Field Marshal Viscount Allenby, during an interview on his recent visit to Ottawa, enroute to England from a visit to Australia and New Zealand. "If I were asked I should certainly advise anyone in Britain who considered emigrating to think seriously of Canada. I am deeply impressed," he continued, "the fact that Canada can fill every conceivable need for human comfort. This I have found during my journey across the Dominion. The absence of the color question, the natural resources of the country, the agricultural and power possibilities make Canada an ideal country."

To Grow More Corn

Alberta Farmers Bringing In Large Quantities of Seed

There will be a big increase in the acreage planted to fodder corn and sweet clover this year in Alberta, according to the provincial department of agriculture. Farmers are already bringing in large quantities of seed for these crops. There will be several thousand acres in sweet clover, and the corn acreage, which last season was estimated at 73,000 acres, will probably pass the 100,000-acre mark this year, for the province as a whole, with the bulk of it grown in Southern Alberta.

Canada's Best Customer

Big Increase Last Year in Trade With Great Britain

United Kingdom purchases from Canada during the twelve months ended in February totalled \$102,000,000. This was \$100,000,000 more than the United Kingdom purchased in the previous twelve months from Canada, and \$28,600,000 more than purchased in Canada by the United States.

On the other hand, Canada bought from the United States in the 12 months ended to the value of \$597,000,000 as against imports from the United Kingdom valued at \$182,000,000.

What They Can't Do

A small figure was carved among the artists of New York City when it became known that Ralph Adams Cross, head architect of the Cathedral of St. John the Divine, was employing foreign artists to do certain work. Several American artists protested in letters and statements in the daily press, and it was later discovered that one of the foreigners, by way of retaliation, had chalked on the largest bell cast for the cathedral, "You can make Ford, but you can't make these."—The Argonaut.

Doris—Most people admire my mouth. Don't you? Jack (absentmindedly)—I think it is simply immense.

Beneficial Effect Of Grading

Exporters More Careful of Quality When Filling Orders

There is abundance of evidence that the system of grading adopted in Canada is having a beneficial effect. To this fact Dr. J. A. Huddick, Dominion dairy and cold storage commissioner, bears testimony. He further says that improvement in marketing conditions has also aided in raising the status of butter and cheese. As regards butter, he declares that no more is the improvement in quality more noticeable than in Ontario. Under the old conditions before grading was established, continues Dr. Huddick, exporters were not always too careful of the quality of the different lots with which they filled orders for "best" grade of butter. With the grades marked on the packages the quality turns out more uniformly as represented. In recent years grading has greatly extended and is now applied in the marketing of many farm products, including grain, wool, meats, and eggs as well as butter and cheese.

Forests Provide Fibre Silk

Pretext Fabrics Are Manufactured From Common Wood Pulp

Canadians need never worry about having clothes to wear as long as the country's forests hold out, was the assurance given the Royal Canadian Institute of Commerce by Prof. Harold Hilbert, McGill University.

A number of years ago some scientists discovered cotton was made of dehydrated sugar molecules arranged in a certain way and also that common wood pulp was cellulose, another form of sugar molecules, and realized that time the textile world had been displaying the pretext fabrics and the most diverse forms of woven goods that were nothing more substantial than the wood they were made out of.

Artificial or silk fibre, known as merely a poor substitute of cotton, was simply nitro-cellulose congealed into the form of thread, and as proof of this statement the speaker made, factored some of it before his audience. As research went on, the speaker said, the product would be constantly improved.

Sending Holy Carpet To Mecca

The Egyptian Government has decided to permit the holy carpet to be sent to Mecca for the pilgrimage of the year 1344 of the Hejra or flight of Mohammed from Mecca to Medina. The ceremonies will take place during the summer. The carpet has been prepared and will be transported to Mecca in ten large boxes.

Tattered Timothy: Pre-been trampin' four years, masin, an' it's all 'cause I hear that the doctors recommended walkin' as the best exercise.

Mrs. Prim: Well, the doctors are right. Walk along.

Society Girl to Make Movies

Miss Mary E. Cooke, a charming addition to the group of passengers making the trip to the West Indies this winter on the Canadian Pacific liner Montroyal, brought along a movie camera with which to photograph interesting sights on the cruise. Miss Cooke is shown here utilizing her camera for the first time, taking movies of her friends, as the M. Montroyal pulled out of New York on March 1 for a 29-day cruise of Caribbean waters.

Britain Gives Best Demonstration Of National Honor That The World Has Ever Seen

Alberta's Mineral Production

Value of Production Increased Nearly Three Million in Year

The total value of the mineral production of the province of Alberta in 1925 was \$25,095,713, compared with \$22,344,990 in 1924, according to the preliminary report of the Dominion bureau of statistics. Among the principal items of production during the year were: Coal, 8,867,513 tons valued at \$19,510,985; oil, 149,432 barrels valued at \$768,537; gas, 8,994,921 M. cubic feet valued at \$370,000; cement, 395,857 barrels, value \$912,529.

The most outstanding feature of the production for the past year was the vast increase in the output of crude petroleum. In 1924, Alberta occupied but an insignificant place in the production of oil in Canada, but in 1925 it suddenly took first place among all the provinces of the Dominion, producing more oil than all the others put together. The comparison of production shows that in 1924 only 844 barrels were produced with a value of \$4,125; but in 1925, 169,432 barrels were produced with a value of \$768,537. The rest of Canada produced 148,551 barrels with a value of \$429,318.

An Envious Position

Canada's Per Capita Wealth Only Surpassed By Britain and U. S.

In estimated national wealth in millions of dollars, Canada stands seventh on the list, higher than Australia, Brazil, Argentina and, in fact, higher than any of the newer countries into which surplus population can freely flow. Dr. D. A. Macdubbin, professor of political economy, University of Alberta, stated in a recent address at Regina. In wealth per capita in dollars Canada is only surpassed by the United States and Great Britain. "Canada is among the only five nations showing a surplus or current account, and is also among those countries having a food surplus. She ranks fifth among the nations as an exporter and seventh as an importer."

Annuity Awaits Missing Son

Thomas Bernard Pink, a son of the late Sir Thomas Pink, who was living in Canada when the war broke out and is believed to have emigrated with the Canadian forces and served in France in 1914. If living, is entitled to an annuity of \$750 from his father's estate. Thomas Bernard seldom corresponded with members of the family, and since the war no trace of him has been found, although his father made extensive inquiries for a long time before his death.

Harrold's Weekly Edition of the Wall Street Journal Says:

"During the current year, according to the figures of the chancellor of the exchequer, Great Britain will pay us on account of our war debt, principal and interest, something over \$100,000,000 and will receive from her debtors not less than \$70,000,000, including German reparations under the Dawes plan. Britain's principal war debtor is France, which has been active, not to say avaricious, in the collection of her own debts, but has not shown the same enthusiasm about paying anybody. Hence, among other things, the demoralized franc."

"As a loyal friend and an honest debtor, Britain should command our sympathy, and it seems a pity that our politicians should fail to appreciate the sterling honesty she has displayed where it would have been by no means difficult to procrastinate and plead poverty."

"According to the same authority, Britain's national debt at the end of last year, was \$7,738,000,000. This works out at \$71 per head of the population, and it will cost every man, woman and child something like \$20 this year to meet the annual charges for interest and management."

"These are stupendous figures which we are considering. A population less than 40 per cent. of our own, working in an area which could very nearly be tucked away in Florida and would be lost in Texas. It has been pointed out to British statesmen by good-natured Americans that they could have driven a better bargain with us if they had waited two or three years before taking up the settlement of the debt to America."

"It is curious how unanimous British sentiment was for an early settlement. It is all very well to prate about national honor, but when a whole people, well knowing that its own debtors will be disloyal and evasive, nevertheless reaches down into the deepest depths of its pocket to meet its own obligations, to re-establish its currency at par and to look the whole world in the face with credit unimpaired, the most careless American, regardless of refugee Irish ancestors or German extraction, must accord his best to the most practical demonstration of national honor the world has ever seen."

Want Canadian Cattle

Agitation in Glasgow For Revival of the Free Importation

Glasgow has taken the lead in the revival of the Free Importation of Canadian Cattle. A committee, which was disbanded about two years ago because it was thought the removal of the embargo on Canadian cattle would result in largely increased shipments of cattle from the Dominion and which is being revived in consequence of restrictions yet remaining and disappointment in the shipments, Glasgow is being joined by other municipalities whose populations total 10,000,000.

"Vested interests bar removal of the embargo," declares W. Crane, of Salford, one of the leaders in the reorganization of the association. "The British public want meat coming in a skin, not in a bag," says Crane.

An Albino Holstein

Something new in the way of bovine curiosities is reported in the Breeder's Gazette.

"I am testing, for the Ellsworth Cow-Test Association in Pierce County, Wisconsin," writes Clarence Englemann. "At Henry Rohrer's farm I found an albino bull calf. It is absolutely white, with pink eyes, and is a grade Holstein-Friesian, born Jan. 2, 1925. It is healthy and normal, except in color. The dam is a three-fourths grade Holstein-Friesian, and the sire a seven-eighths grade Holstein-Friesian. Who knows of another calf like this one? I think it unusual, as I have never seen one before."

No Law On This

The Fort Colborne branch of the Great War Veterans' Association has received advice from Ottawa to the effect that there is no law, rule, or regulation in force which forbids the wearing of the British flag in Canadian dominion on foreign boats in Canadian waters.

Builds up weak bodies

"Headaches, nervousness and sleep spells were frequent. I wanted to sleep. After taking a bottle of Tanlac, within 24 hours, I was able to sleep normally again, have no more nervousness."
—Miss Jeanne Anlin, 1946 Chathamland Ave., Montreal.

From Mother Nature's storehouse, we have gathered the roots, herbs and barks which are combined, under the famous Tanlac formula, to make Tanlac.

If your body is weak and undernourished, if you can't sleep or eat, have stomach trouble or burning rheumatism, just you see how quickly Tanlac can help you back to health and strength.

Don't delay taking Tanlac another day. Stop at your druggist's now and get a bottle of this, the greatest of all tonics. Take Tanlac Vegetable Pills for constipation.

WORLD HAPPENINGS BRIEFLY TOLD

The United States is to participate in the world's poultry congress to be held in Ottawa in 1927.

Thomas Burberry, the inventor of waterproof clothing bearing his name, died April 6, in England.

To commemorate Good Friday, King Alfonso commuted death sentences against nine persons, including two women.

Silver black foxes sold last year by fox farmers of Prince Edward Island had a total value of more than \$2,000, 000.

Bringing virtually every city in the Pacific Northwest to within approximately 40 hours of New York City, the Pasco-Elko air mail service has started.

Traffic regulation of the pedestrian as well as the motorist was adapted as an underlying principle of the model traffic code at the national conference at Washington on street and highway safety.

With so thorough a preparation at hand as Miller's Worm Powders the mother who allows her children to suffer from the ravages of worms is unwise and culpably careless. A child subjected to the attacks of worms is always unhealthy, and will be stunted in its growth. It is a merciful act to rid it of these destructive parasites, especially when it can be done without difficulty.

It is said that woman shares man's grief, doubles his joys and troubles his expenses.

Minard's Liniment for colds

"Keep inside those fire-lines, there!" "But I'm a reporter." "Well, if you want to know anything about the fire, read tomorrow's paper."

Borden's ST. CHARLES EVAPORATED MILK
Makes fine cream soups, delicious creamed dishes, gravies and beverages.

Use it wherever the recipe calls for milk

To Advertise Canada Abroad

Special Canadian Supplement of the Christian Science Monitor

What Canada needs at the present time more than anything else is advertising in those other countries of the world where there is capital looking for investment and people looking for opportunities to get away from forbidding conditions and establish themselves where they will have a new chance in the new world.

This country has got everything that the surplus men and the surplus money of older nations may be looking for—everything in the way of opportunity for the investment of capital and where landless people can acquire homesteads and set up enterprising communities.

The time is ripe for Canada to present her case to the world and in securing this foreign advertising, we believe the special Canadian supplement to the Christian Science Monitor, which will be issued next month will do important service. There will be an issue of 250,000 copies, of which 100,000 will circulate in the United States, 50,000 in Europe and Australia and 100,000 in Canada, largely for mailing abroad.—Toronto Star.

Fabric Combinations Achieve Smartness in Two-Piece Frocks

Fashion's fancy for combining two materials in one costume is charmingly expressed in this model which has flaring skirt, round collar and bands on the sleeves of navy-blue taffeta plaided in red, yellow and white, while the overblouse is of navy-blue crepe satin. Raglan sleeves are a feature of the blouse, which slips on over the head, fastening under a flat plaid, and is banded at the hips, giving the new blouse effect. The skirt is moderately circular, open at the side, and joined to a fitted band at the natural waistline. If desired, the side front opening may be omitted and the front made in one piece. The blouse, No. 1062, is in sizes 16, 18 and 20 years (or 34, 36 and 38 inches, bust only). Size 18 years (36 bust) requires 2 1/2 yards 36-inch material. The skirt, No. 1067, is in sizes 28, 30, 32 and 34 inches waist. Size 28 waist requires 2 1/2 yards 42 or 64-inch material. Price 20 cents, each pattern. Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dressmaker. Price of the book 10 cents the copy.

For years Mother Graves' Worm Exterminator has ranked as a reliable worm preparation and it always maintains its reputation.

There are 9,577 electric signs in New York City.

Engineer Evolves Aerial Train

Dirigibles Linked Together Will Have Speed of 100 Miles An Hour

An aerial train consisting of separate dirigibles linked together, has been evolved by a Detroit engineer. It is to be completed by 1928 at an estimated cost of \$2,000,000. This ship will have four units and be capable of transporting 240 passengers, 24,000 pounds of luggage and forty tons of express and mail. Another departure from existing types is the plan of the inventor to equip the ship with wings, of which each unit will have four. The estimated speed on the train is 100 miles an hour.

"DIAMOND DYES" COLOR THINGS NEW

Just Dip To Tint or Boil to Dye

—everything! Buy Diamond Dyes—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton or mixed goods.

Northern Ireland Has Many Autos
Northern Ireland, although better served by railways than the Irish Free State, has an automobile for every forty inhabitants. In Southern Ireland there is only one motor vehicle for every eighty inhabitants.

The Best Medicine I Have Ever Taken

So Says Mr. Arthur Simmons Of Dodd's Kidney Pills

P.E.I. Man Used Them For Sore Back and Headaches

Micaceous, P.E.I.—(Special).—That Backache and Headaches are caused by weak kidneys and that the right way to treat them is to use Dodd's Kidney Pills, is again shown by the experience of Mr. A. Simmons, a well-known and highly respected resident of this place.

"Dodd's Kidney Pills have been a great help to me. Before I started to take them I had severe pains in my back and suffered with terrible headaches. I felt very tired. After I had taken the first box and now I am taking them all the time. They are the best pills I have ever taken."

The work of the kidneys is to strain the impurities out of the blood. It is necessary work if the body is to be kept healthy. It is a trying work for the kidneys are constantly in contact with the seeds of disease.

Boys outnumber girls in the Malin, Ore., public school, and the last graduation class was composed entirely of boys.

Minard's Liniment for sore throat

"Toasting bread converts the starch into a more easily digested substance, dextrose."

Some people believe in luck just because they never have any.

Still Enjoying Life at 84

Thanks To That Wonderful Remedy

Mrs. F. H. Miller, 1845-11th Ave., Vancouver, B.C., writes:—"Five years ago my husband suffered terribly with severe attacks of palpitation of the heart and smothering spells, and two doctors stated that he could not possibly live six months."

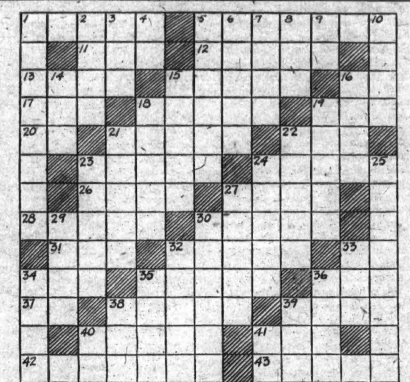

A friend recommended Milburn's Heart and Nerve Pills, with the result that my husband is still enjoying life at the age of 84 years.

He has improved so wonderfully that he can now climb the stairs without having those awful pains in his heart."

Put up only by The T. Milburn Co., Limited, Toronto, Ont.

Find Ammunition Cache in Dublin

Two tons of high explosives, 285 live bombs and hand grenades, 5,000 spare parts of bombs, 5,000 pounds of rifle ammunition and 10,000 detonators in addition to bombing machinery, have been found in a stable in North King Street, Dublin.

Healthy Mothers! Healthy Children!

Mrs. Phebe Claus

Hamilton, Ont.—"I wish I were able to convey to every weak and ailing woman the value of Dr. Pierce's wonderful medicines and what they have done for me. I am the mother of six children and Dr. Pierce's Favorite Prescription was the only medicine I ever took during my life. I always got along fine, it kept me so well and strong that I was able to do my work right up to the last day. I did not suffer with any of the troubles that come to most women at that time. Also I had very little suffering. My children were all healthy and strong and I regained my strength very quickly afterwards. 'Favorite Prescription' is the greatest medicine a woman can take." Mrs. Phebe Claus, 56 Clyde St. All druggists take it.

Send 10c to Dr. Pierce's Laboratory in Bridgeport, Ont., if you desire a trial pig. Favorite Prescription tablets.

SEES ENORMOUS ADVANTAGES IN HUDSON BAY LINE

Toronto, Ont.—Should the Hudson Straits prove the menace to navigation from Hudson Bay to Europe, which some believe it to be, the Hudson's Bay Railway can still be a profitable proposition, Senator G. D. Robertson, former minister of Labor, has declared in an interview with the Star here. It will enable the iron ore deposits of Belcher Islands to be tapped and provide a route whereby that iron can be taken to the coal fields of Alberta, he pointed out.

The iron ore deposits around Lake Superior, Senator Robertson pointed out, are taken by water and rail to Pittsburgh and the Pennsylvania coal fields. A similar transportation plan will take Belcher Island iron to the coal fields of Alberta and make Alberta what she is destined to become, the industrial area of Western Canada. Senator Robertson pointed out to the Star that should the straits prove too dangerous, western wheat can reach Europe via the Hudson's Bay Railway to Port Nelson, thence by the sea route to Moose Factory at the south end of James Bay, and by rail to Quebec City, thence by steamer to Europe. Such a route would mean 300 miles shorter rail haul and 400 miles longer water haul than the lake and rail route via Port William. Grain carriers from Port Nelson to Moose Factory, he said, would then return cargoes from Belcher Islands, which are rich in iron ore. Belcher Islands lie at the east shore of Hudson's Bay where it narrows down into James Bay. These return cargoes would travel via the Hudson's Bay Railway to the main transcontinental line and to the smelters in Alberta. In addition, the north Saskatchewan mines would be connected with shore branches to the Hudson's Bay Railway and the ores be taken to Alberta.

Alberta Pacific Sold To Montreal Company

Business Will Be Carried On Under Old Name

Calgary.—At a special meeting shareholders of the Alberta Pacific Grain Company unanimously ratified the sale of the assets of the company to the Royal Securities Corporation of Montreal.

It is said the transaction involves more than six million dollars.

The purchases of the assets will be understood, form a new company by the same name and continue the operation of the Alberta Pacific Company. It is stated that the present employees of the grain company will continue in their positions under the new ownership.

It is understood the transaction will be completed within the next few weeks.

Spillers, British milling interests, were among the principal shareholders in the Alberta Pacific, having purchased a big interest some time after they started their Canada venture.

Expedition Has Left For Dutch New Guinea

Party Led By California Professor to Seek Pigmy Tribes

Batavia, Java.—The expedition headed by Prof. Matthew F. Sterling, Berkeley, Calif., sailed for Sourabaya to explore the unknown interior of Dutch New Guinea.

"Pigmy tribes are in New Guinea. We will find them," declared Stanley A. Geshberg, historian of the expedition. He said they hoped to bring back interesting material, not only for science, but for the world in general, "for New Guinea is the last of the really unexplored countries of the world."

An airplane will be used for flying over the jungles and mountains.

Will Fly Around World
Montevideo, Uruguay.—Major Larz Hoopes, the Uruguayan aviator, has gone to Europe to purchase aeroplanes for the commencement of a world flight late in August.

The Uruguayan Government is sponsoring the venture.

W. N. U. 1624

Last Week In The Alberta Legislature

Outlet to Coast For Peace River Country Discussed

Edmonton.—A statement of Mr. Robertson's situation with regard to the Edmonton, Dunvegan and British Columbia Railway was given to the provincial house by Premier Brownlee.

The interest of the province in the road at December 31, 1925, was \$19,660,543, and under present conditions was increasing at the rate of \$350,000 yearly. The province had endeavored to sell the railway, but without success, and the offers for leasing received from either of the transcontinental railways promised only nominal rentals, which would still leave the financial burden to be borne by the province. The situation was further complicated by an equity in the road held by the Royal Bank. The bank had originally asked \$2,400,000, but had ultimately reduced the sum asked for to less than \$1,500,000, though they had refused to allow the government to make the amount payable unless they first accepted the offer. The government, however, would not pay more than \$1,000,000.

Premier Brownlee considered that this road was a responsibility of the Dominion Government. Premier Mackenzie King, prior to the last Dominion election, speaking at Edmonton, had declared that the provision of a coast outlet for the Peace River country was the spearhead of the Dominion Government's policy. To continue the coast outlet it would be necessary to take over the R. D. & B. C. He considered it would be a blot on the history of Canada if the Dominion made provision for the completion of the Hudson Bay Railway without also providing the Peace River country with an outlet to the coast. He did not oppose the completion of the Hudson Bay road, but said, "If you build the one, build the other." Immediately after the close of the present session of the provincial house, he and the minister of railways were going to Ottawa to urge this view on the Dominion Government.

In the meantime they would continue the present leasing arrangement with the C.P.R.

Disastrous Fire Sweeps Banff Springs Hotel

North Wing Destroyed and Loss Will Be Nearly \$2,000,000

Banff.—A disastrous fire, which apparently broke out in the rotunda of the north wing of the famous Banff Springs Hotel, destroyed the wing, a four-story structure, but the combined efforts of the townspeople of Banff and a large force of railway workers and fire apparatus rushed from Calgary saved the south wing, and much of the valuable furniture in the section destroyed.

No estimate of the damage has been made by officials of the Canadian Pacific Railway, which owns the hotel, but it is believed it will be near the \$2,000,000 mark. In addition to the complete destruction of the north wing, considerable damage resulted to the lower central section. A stone tower situated between the two wings acted as a barrier to the flames which at times threatened to sweep the entire building.

Immediate steps will be taken to rebuild the section destroyed and to repair damage to the central tower and other sections of the hotel.

Make Recommendations

Ottawa.—Representatives of railway brotherhoods made recommendations to Premier King and members of the cabinet including requests for restriction of the powers of the senate, support of old age pensions, increase of exemption under the income tax, and elimination under the income tax, and income taxes.

Prince Is Recovering

London.—The Prince of Wales was sufficiently improved from his recent aerial operation to undertake a motor trip to Sandwich. He will stay at a small house on Sandwich Bay and plans during his visit to play golf on the nearby links.

Fishing Boats Capitalize

Tokio.—A message from Hokkaido, the northern island of Japan, reports that more than 80 persons are missing as the result of the capsizing of ten fishing boats in a storm.

CHILLED BEEF EXPORT TRADE IS ADVOCATED

Toronto.—A chilled beef export trade for Canada and a stender stream of live cattle to the English markets was advocated in the report of the Ontario Agricultural Inquiry committee, which was tabled in the Ontario Legislature.

In presenting the report, Dr. David Jamieson, chairman of the committee, pointed out that there should be a greater demand in England for Canadian cattle, which were reckoned as good as any in the world by the British feeders. The trouble was that the British feeder was not assured of a steady stream of cattle from Canada. He was critical of the efforts of W. T. R. Preston, appointed by the Federal Government to investigate Canadian cattle shipments, stating that the mission had cost Canada \$35,456 and little or nothing had been accomplished.

It was claimed by Dr. Jamieson that the committee's activities had resulted in breaking up the North Atlantic shipping conference and the establishment of a Canadian conference, through which the live cattle trade from here to Britain will be materially assisted.

British Diplomat Dead

Sir John Brown Noted For Achievements in Far East

London.—Sir John McLeay Brown, noted for his career in the British diplomatic service in the Far East a generation ago, is dead, aged 84.

His most notable achievement in the Orient was his successful crossing of diplomatic waters with the Russian admiral, Alexoff, when the latter was first sent to Korea to attempt the peaceful, financial annexation of that kingdom to Czarist Russia a quarter of a century ago. From 1898 to 1900 he was head of the customs and controller of finance in Korea. His career in the Far East began in 1861.

Brisk Demand For Farm Labor

Workers Coming to Saskatchewan From Manitoba, Alberta and B.C.

Regina.—A brisk demand for farm workers is reported from the district employment service offices throughout Saskatchewan and labor is being imported from British Columbia, Alberta and Manitoba points almost daily. Up to March 1 this season a total of 262 farm workers have been brought in.

In addition, a large number of Scandinavian, Danish and English immigrants have been placed on farms for spring and summer work.

Allan Cup Defenders

The team as they appear in the photograph are as follows:—Back Row, left to right: Ted Whalen (sub), D. Cox (m.b.), A. Fudas (right wing), Bill Bridge (captain, defence), Lorne Chabot (goal), Alex Gray (centre), Art Fossard (goalie). Front row, left to right: E. L. Carpenter (manager), Wilfrid L'Heureux (left wing), Gordon Wilson (defence), A. Chapman (sub), J. Hicks (secretary).

Physicians Test Out Combined Inventions

Possible to Get Accurate Record of Human Heart Beats

Chicago, Ill.—Staff physicians of St. Luke's hospital have combined two modern inventions, the radiostethoscope and the electro cardiograph in a device which they believe makes it possible for a physician to get an absolutely accurate record of human heart beats.

The stethoscope's function is to amplify heart sounds. Hitherto it was pointed out, every physician who listened had a different ear and even when the sounds were altered, disagreements in diagnosis resulted. The cardiograph has been attached to the stethoscope in such manner that the heart beats are recorded mechanically, thus doing away with a large amount of error.

Questions Use Of Mounties In B.C.

Matter Brought Before House by Conservative Member For Victoria

Ottawa.—S. F. Tolmie (Conservative, Victoria) in a question placed on the order paper of the House of Commons, asks: "Does the Government of Canada still believe there is any necessity for maintaining the R.C.M.P. in British Columbia, having regard to the fact that the customs service are able to deal with the narcotic problem on the waterfront; also having regard that this work is also covered by the drug squads of the Vancouver and Victoria city police; also by municipal police throughout the province, as well as the provincial police, which covers the whole province, and has offices and large staffs in the principal cities of the province?"

Big Development Plans

Company Will Spend Fifteen Million in Flin Flin Mining Area

Winnipeg.—A development scheme involving expenditure between \$10,000,000 and \$15,000,000 will be launched in the Flin Flin mining area of Northern Manitoba, as soon as a railway line is built into the area and tests for treatment of ore completed, according to J. F. Watson, head of the Mining Corporation of Canada.

The plans of the company, Mr. Watson announced, provide for the establishment of a town site, erection of a smelter with a capacity output of 2,000 tons of ore a day. It is also proposed to develop 20,000 horsepower on the Churchill River.

Chinaman Robbed By Thugs

Edmonton.—Accused by two thugs as he was proceeding home, Wong Kong Yee, a Chinaman, was assaulted and knocked unconscious after a severe beating up, and robbed of a sum of \$125.50 which he was carrying in his pockets at the time. The thieves also deprived the Chinaman of his overcoat and coat and vest.

ATTEMPT MADE TO ASSASSINATE ITALIAN PREMIER

Rome.—Benito Mussolini, strong man of Italy, was near to death April 7 as he emerged from the Congress of Surgeons. He had raised his arm in salute to the plaudits of the multitude, when a woman pressed a revolver into his face and fired.

At that very moment, Mussolini, as is his habit, threw back his head, the bullet passed through his nostrils, and with a quick step backward, the Fascist premier put his hand to his face, and drew it away covered with blood.

His assailant, believed to be an Irishwoman, the Hon. Violet Albin Gibson, the 60-year-old sister of Baron Ashbourne, a resident of Compiegne, France, was seized by carabinieri and dragged to a place of safety, for an instant the thousands who had gathered to acclaim the premier were in a frenzy of excitement and rage.

With Mussolini, at the time, were Professor Roberto Alessandri, and the noted surgeon, Raffaele Bastianelli, and they rushed to his aid. It was Bastianelli who dressed the wound and later he issued a statement, saying: "The premier was wounded by a firearm, the bullet perforating both nostrils, but without grave result."

Notwithstanding, Dr. Bastianelli desired to enter his automobile, but he was induced to return to the capital. He was perfectly tranquil, seemingly not thinking of himself, and was only anxious that no grave consequences among the people should arise from the attempt.

"I desire that the country be not alarmed," he exclaimed. "I do not want reprisals. It is my will."

Shortly afterwards he reappeared before the crowd who cheered him and would have carried him shoulder-high. Mussolini smiled and again gave the Roman salute, and then drove away with Alessandri and Bastianelli.

Bright Outlook For Western Farmers

C.P.R. Survey Shows Agricultural Conditions Are Favorable

Winnipeg.—Agricultural conditions in Western Canada, according to a survey just completed by the Canadian Pacific Railway, promise a favorable outlook. Following the mildest winter on the prairie in many years, farmers are rapidly getting their land in shape and according to the report, seeding may be started in the lighter soils, within a week.

The general rainfall of last autumn and reasonable snowfall since, have assured practically all sections in the western provinces a sufficient moisture to meet spring requirements.

Acreage under cultivation closely approximates last year's figure, the report states. In provinces the acreage is shown as follows:

Manitoba, this year, 3,299,700; last year, 2,643,000.
Saskatchewan, this year, 7,346,482; last year, 4,255,183.
Alberta, this year, 9,015,496; last year, 2,721,629.

The aggregate is 12,663,671 acres, compared with 12,619,572 acres a year ago. The report adds that the ultimate cultivated acreage will be determined by the amount of spring plowing farmers are able to do.

Dairy Pool Incorporated

Saskatchewan Has First Organization Under Agricultural Co-operative Marketing Act

Regina.—With an objective of 25 per cent. of the butterfat handled by the creameries of the province last year, the Saskatchewan Dairy Pool has been incorporated and officers and a provisional board of directors set up.

The total production of butter by the creameries last year was 16,000,000 pounds, and before the pool can operate it will be necessary to secure signatures of sufficient producers to provide for an amount of spring plowing farmers are able to do.

The Dairy Pool is the first body to be incorporated under the new Agricultural Co-operative Marketing Act.

To Whom It May Concern:

The following letter is pub-
lished for the purpose of dis-
proving reports put in cir-
culation that Mr N M Carmi-
chael has been unable to retain
men in his employ:

Mr N M Carmichael—Dear
Friend: I can highly recommend
Mr N M Carmichael to any man
that is seeking work on the farm.
I have not met with any nicer
people throughout my various
travels and experience while working
for farmers. I have worked on
farms, different places in Alberta
and Saskatchewan and also twelve
different States in U. S. A., but
must mention that when I worked
at Mr Carmichael's I was treated
like a member of the family, in-
vited along to all places of amuse-
ment and was permitted to take
a day off any time I wanted to go
to town. Never had a cross word
with any member of the family or
was never bossed around or told
that my work was not satisfactory.
In other words I felt myself at
home and found myself at work as
my own boss and always perfectly
satisfactory to Mr Carmichael. I
felt myself well respected by all
the family. I had the best of board
and got my washing done every
week and was provided with a
good bed and room: I will always
feel like a friend toward those
people and know that they respect
me as a friend also. Can truly say
that I have during my life worked
for some hard masters and sincerely
appreciate people that treat a
hired man like a human being.
Was offered and paid the highest
going wages. Only reason I can
offer for leaving his farm is my
keen desire to travel around and
see the world. But I guess like
lots of young men I will soon see
the folly of drifting around aim-
lessly in life.

Sincerely your friend,
Herbert Heine,
Calgary, Alta.

Big Game Hunter gets Live Wolves

1. Rover and Pater and on right, Captain Douders, hero of the chase, with his shot trophy over his shoulder. 2. Rover and Pater photographed on arrival at the C.P.R. Windsor Station, Montreal.

Fulfilling his promise to James
Walker, Mayor of New York,
Captain Frank Douders, well known
Brooklyn big game hunter and
sportsman, arrived at the Canadian
Pacific Windsor Station in Montreal
recently from Northern Ontario with
two live wolves which he captured
on Lake Temiskaming, at the junction
where the River Kippewa flows
into the lake. The two animals,
named Pater and Rover, are intended
for the Brooklyn Zoo.

When taken out of their cages in
the baggage room at the Windsor
Station, both Pater and Rover dis-
played decidedly nervous tendencies.
Pater is an ash blonde, endowed by
nature with a peevish grey coat of fur,
tinged with red, which glistens a lit-
tle in the sun. Rover seemed to be
a bit worn in spots, but his fur what-
ever there is of it is a bluish black,
closely resembling a blue fox. Rover
was inclined to yow. When taken
into the station yard in hurried
head to the snow. After a short
eating performance he insisted on
climbing over the fence via mounds
of snow, but a strong hand at the
leash detained him.
Pater turned out to be a mild,
good-natured child who accepted the
overtures of his audience with be-
coming meekness. A pat on the head
from a total stranger elicited a kind
look from the young lady's large grey
eyes which peep forth like pretty but-
tons on old-fashioned shoes.
Rover was not so meek. At the
same pat on the head from the same
total stranger he snarled bitterly
and would have avenged the indignity
with blood but for the muzzle.
The wolves are only about ten
months old. Rover weighs one hun-
dred pounds and measures about five
feet from the tip of his snow-washed
nose to the end of his scrawny tail.
Pater weighs about eighty-five
pounds and is several inches shorter
than Rover. In addition to the two
live wolves, the captain has seven
dead ones.

Douders claims a record in shoot-
ing the last wolf after a chase which
lasted only three hours and forty
minutes. Usually it takes several
days to corner a wolf. The animal
takes long, powerful strides and cor-
ers around at an amazing pace. But
in the present case there had been a
heavy fall of snow and the wolf had
floundered along until Douders came
within fifteen feet. The animal then
turned, bared his fangs, let loose a
series of howls and leaped at his
pursuer. The captain pulled the
trigger of his gun and a bullet pierced
the wolf's heart and shoulder.
During the expedition the hunter
was aided by Fred Arnett, who oper-
ates the Tem-kip chain of camps
and has taken pictures of wolves in their
native haunts. The sportsman re-
ported that game was very plentiful
in the Lake Temiskaming district.
Deer are to be found within a few
hundred yards from camp.

Motor Run On Charcoal

Fuel Cost Only \$2.35 For Trip of 450 Miles

A Swedish-built motor truck, equipped with a charcoal-burning generator and carrying a load of two and a half tons, has completed a trial trip between Malmö and Stockholm, a distance of 450 miles. The total fuel cost is declared to have been approximately \$2.35.

Experiments with charcoal generators have been going on in Sweden for some time, as well as with the use of a mixture of gasoline and wood alcohol. Both methods are said to have been perfected for commercial purposes. Sweden has no domestic petroleum supply.

DISRUPTIVE COMPOUND

He would have concluded that they stamped him as one who harbored the conviction that he knew all sorts of women and classified them none too pleasantly.

The same analytical observer would have said of Eggleston, arbiter of many of the world's most important affairs, that he was a man who had lived a life in which women had been a useless ornament.

When Joanna was out of the presence of Graydon and the quiet effectiveness of his secretary, a quietness and an efficiency that both depressed and fascinated her, her dazed numbness quickened suddenly into a feverish excitement. That she had become a ghost in some fantastic man's quarters, she was sure. But the thrill of it made her pulses leap. She wanted to rush to the likeliest counter and hide her amazing mystery to her friends there; even to confront "Mr. Good Morning" with a plea that would achieve its climax with the bank's letter under his nose. Then she decided that such a display would be premature.

By this time she was at the street entrance. The first test had come. The "Old Man" had told her to ask the doorman for his card which, he had said, would be waiting for her at the curb. She decided to try it.

To her annoyance the doorman, respectful in his congeniality, seemed to expect her. A wave of his hand brought the limousine to the space opposite where she waited. The "Old Man's" chauffeur descended and held open the door. As she approached, he said, "The bank is closed. The bank whose letter Joanna had wondered carried away in her hands. "Ask that I have Mr. Eggleston. He is expecting a call from me."

The telephone conversation was brief. Graydon seemed only to wish that his friend, the closest of the friends of his elderly years, should know that "she" was on her way to the bank; that "she" would be there in a few minutes.

At the other end of the wire Andrew Eggleston, a gray man who might have been moulded from the same pattern that had shaped Graydon except that the lines of his face were sterner, the lights of his eyes less gleaming and his gestures more spasmodic, would have had his friend say more. He was unhappy with his own curiosity.

Andrew Eggleston, chairman of the board of the great banking institution, and himself one of the world's richest men, was totally unfamiliar with a sense of curiosity about his bank's patrons. Yet he wanted to know how "she" suddenly had become possessor of the not inconsequential sum of one million dollars. He attempted to keep his friend, Graydon, on the line.

"What did she say? How did she take it? Did she—that is—well, damn it, man! Is that all you have to say?" That your sales clerk is coming down to get a million dollars!

Eggleston's chief reputation in financial matters was for his irascible temper. He floundered dreadfully before the futility of spluttering into a telephone. But Graydon would not humor him.

"Her emotions at the moment, my friend, hardly of much consequence. At any rate, I fancy she will not have recovered from them by the time she reaches the bank. Then you may estimate them for yourself."

The banker sought suitable phrases with which to express his irritation at his friend's reserve. Failing to find them, he clicked his receiver abruptly. "Also he relieved himself of a well rounded, sonorous laugh."

A much younger man, who died in the embrace of a window across the room, laughed softly. "The adventure begins to interest you?" this man remarked. "I hope, for your sake, it becomes worth while."

Eggleston glared at the younger man sharply, but declined him no reply. He turned to the papers on the table before him.

Brandon, the man in the window, presumed his inspection of the papers of the street outside. An observer, studying his face, would have traced on it the spectres of cynicism and

face of this re-arrangement of cards at its proper level, immediately obedient to "Miss Twenty-seven of the silks." He spoke confidentially.

"I tell you, Miss, I know nothing except that I was to bring you here to old Eggleston's bank. But this I'll tell you, too, if you take it from me my boss and your boss is o.k., but if he's sending you in to see his grouchy pal Eggleston, there's something 'doin' and when there's something 'doin' over a pretty big like you, watch your step, girl; watch your step! And maybe you'd better give me your number so I can call you up when I'm out duty after ten. You're the kind that looks too good to be true."

(To be continued)

Cat Worries Sheep

It is rarely that farmers experience trouble through cats worrying sheep, but George Simpson, of East Grey, Ont., reports that recently he was forced to kill a cat which had worried two sheep to death.

Drives Out Rheumatism Subdues Lumbago

Brings Ease and Comfort to the Sufferer at Once

NERVILINE

A King Over Pain

Those who seek permanent relief from the grinding pain of Rheumatism and Lumbago should read the letter of T. E. Normand, from Georgetown, who writes:

"I was fairly crippled with aching joints and Rheumatism. Nerviline must have been what I needed, because it cleared up my trouble quickly."

"If you need a reliable, strong, penetrating pain remedy, one you can depend on, get a 25c bottle of Nerviline today. It will make you well quickly."

A Super-Centurian

Irish and famous breeding ground of hale and hearty old men, has produced a super-centurian. He is William Smith, of Dromara, County Down, and has celebrated his 125th birthday. He was middle aged, according to ordinary standards, when he went out to fight in the Crimean War. His most strenuous exercise nowadays is walking a mile each Friday to receive his pension.

SIXTEEN YEARS USE OF BABY'S OWN TABLETS

Has Shown One Mother There is Nothing to Equal Them

A constant use of Baby's Own Tablets for their children has proven to thousands of mothers that they are without an equal for babyhood and childhood ailments. One mother, Mrs. C. W. Jackson, R.R. 1, Gilford, Ont., writes:—"We have used Baby's Own Tablets ever since our first baby was born, thirteen years ago. We have five healthy children and the Tablets is the only medicine they've received in their early years. Our baby is one and a half years old, is walking and talking and weighs 25 pounds. Baby's Own Tablets is the only medicine he has ever had."

Baby's Own Tablets are guaranteed to be absolutely safe for even the weakest babies. They are free from opiates and narcotics; act as a gentle laxative on the stomach and bowels and thus relieve constipation and indigestion; break up colds and simple fevers and make baby healthy and strong.

You can get Baby's Own Tablets from your druggist or direct by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Little Helps For This Week

I will help thee, saith the Lord. Isa. xli. 14.

There ran a whisper through the hat—
"Look up, my friend, do thy work in joy!"

Train nerve and sinew in the glad empyrean.

Of simple souls that neither strive nor cry:
Drink large draughts of love that will not cloy.

Life shall not fall thee, for thy Lord is nigh."

"When do we lift each other up? Must we gaze a height first; or can we reach up our feebleness together to the hands that do offer us a mighty help from on high? Near-doing and near-living, and near-loving, these little particles make the great heaven, as the little polarized atoms of light, all magnetized one way, make the great blue in which the stars burn forever."
—Adeline T. D. Whitely.

Minard's Liniment used by physicians

Nurse's Advice Rid Her Of Pimples

Brooklyn. Mrs. Minnie Fensler writes:—"My pimples and black heads got so bad I feared it was eczema. I consulted in a nurse friend of mine. She had been troubled with constipation and indigestion for some time. She advised me to try Carter's Little Liver Pills. You can see by my picture that the treatment has done wonders, and I am now free from constipation. Chronic constipation many times causes pimples. Carter's Little Liver Pills encourage the bowels to eliminate the poisons. Druggists, 25 & 75c red packages."

Clever Artist Was Handless

Trained Himself To Hold Brush and Pencil With Teeth

Alexander Alexander, who although born without hands gained a considerable reputation as an artist, has just died at Edinburgh.

On several occasions he had paintings hung at exhibitions of the Royal Scottish Academy, in one year two pictures being accepted.

Since boyhood he had trained himself to hold brush or pencil with his toes.

When a valuable miniature, about one inch in size, by a famous Italian artist, was defaced, Mr. Alexander undertook the delicate work of restoration, and completed it in 12 days.

LEG SORES

ARE OUSABLE. If you suffer from Leg Sores, Ulcers, or other skin troubles, I will send you a FREE TRIAL. This will show you how to get rid of these troubles for ever. It is different from anything you ever heard of, and the result of over 25 years' experience. Send your name and address to Dr. H. J. WHITTELL, Suite 30, 421 East 11th Street, Kansas City, Mo.

Hemorrhoids

That Shockingly Painful Affliction

There are few of us who have not suffered from this trouble, but little do we realize that in most cases it is due to our own neglect.

Medical authorities agree that Hemorrhoids (piles) could be largely avoided were our care more nature by observing nature's laws.

Hemorrhoids are not frequently brought about as a result of nature's law. Therefore, assist nature by assuring an easy passage of the waste matter, and thus permit regular, easy elimination, without any overtaxing of the intestinal muscles.

Najol, the scientific internal lubricant, replaces the lack of nature's lubricant, and obviates the possibility of constipation.

Ask your druggist for Najol today and remember—look for the name "Najol" in red on both bottle, label and package.

THIS WOMAN NOW WELL

Her Suffering Relieved and Health Restored by Lydia E. Pinkham's Vegetable Compound

Toronto, Ontario.—"I am certainly very grateful for the benefit I have received from Lydia E. Pinkham's Vegetable Compound, and the Sensitive Wash and the Liver Pills. I feel early spring I was suffering so much from loss of blood that I thought I would never be any better as doctor's medicine relieved me only for the time being. I read the Vegetable Compound advertised in the "Toronto Star," and I find the Vegetable Compound Tablets the best for me. I have been taking them since Spring, and I intend keeping them by me all the time. After taking my Private Text-Book I saw it was necessary to use Lydia E. Pinkham's Sensitive Wash, and I can safely say I feel a different woman. My friends remark how well I look. I am a very busy woman, but I am ready at all times to boost your medicines."—Mrs. GRANTLEY CLYDE, 549 Lansdowne Avenue, Toronto, Ontario.

You may be having an experience similar to Mrs. Clyde's and will be interested to know what the Sensitive Wash and the Liver Pills do. Every sick woman can feel confident that Lydia E. Pinkham's Vegetable Compound will help her, since we are told that it does help out of every 100 women who take it.

The Touring
Car

The Improved Ford Touring Car

An all-steel body on the improved chassis, with a new top designed to harmonize with the reduction in height, gives the Touring Car a grace and smartness heretofore unapproached.

Advances in comfort have kept pace with improvements in design. Placing the fuel tank under the cowl has made it possible to lower the seat, giving greater leg room and added comfort for driver and passengers. Ventilation and driving vision are improved by the new touring windshield, the lower half of which is adjustable.

The side curtains, generally re-designed to conform to body and top changes, add the final detail of touring comfort. When in place, the curtains open with the doors and combine wide vision with lasting durability.

Mrs A E Michael is in an Edmonton hospital this week, having undergone a minor operation.

Work will shortly be begun on the grandiose walks on Stony's side streets.

Mrs Henry Henkel visited this week with friends at Duffield.

R B Brooks returned to Stony Saturday, after a business trip to Edson and surrounding district.

Ray Hyett made a motor trip in his big cat to Ponoka on Monday—four went down and three came back.

After a visit to friends on the prairie, Mr Breckenridge returned to town Saturday, and Golden Spike school resumed its sessions on Monday morning.

Auctioneer Washburn held a very successful sale yesterday for Mr Wright at Golden Spike. The farm was offered for sale, the prices bid indicating land hereabouts is very valuable.

Johnny Miller, of Stony Plain Garage, has disposed of the last carload of Fords to the following: Touring car to Const. Mendel of Lac Ste. Anne; one to Mr Schum of Spruce Grove; Pe e Gabel of Spruce Grove; a radiator to Insurance Agent Barrie; a ton truck to McLeod Co. at the Grove.

Negotiations are said to be pending for the transfer of the Fifth ranch, consisting of a section of land north of town, to a party of capitalists from the City.

Mr G W Gleason, who has spent some time in the Stony and Holborn districts, returned this week to his home in Cedar Rapids, Iowa. Mr Gleason has been favorably impressed with the Alberta climate and will return next fall and bring some new settlers with him.

Union L. A. Elect Officers.

A largely attended meeting of the Ladies' Aid of the United Church was held Tuesday last at the home of Mrs J. E. Clarke. At the finish of the routine business, the president, Mrs Clarke, thanked the officers and members for their excellent support during the year's work. The treasurer, Mrs Walton, gave her report in a very satisfactory form; after which Rev Whelan was asked to take the chair during the nomination of officers. Following is a list of the new officers for the year—

Pres., Mrs L. Wight.
V. Pres., Mrs J. E. Clarke.
Sec., Mrs R M Oatway.
Treas., Mrs R A Walton.
Convenors, Mrs R Brooks,
Mrs F W Lundy.

CARL FISCHER.

Stony Plain and District.

In Stony Plain, Thursday, April 8, to the wife of Leslie Robbins a son.

In Stony Plain, on Sunday, April 11, to the wife of Ph Baron a daughter.

At Golden Spike, on Friday April 9, to the wife of Mr Carl White, a son.

Mr W F Stevens, secretary for Alberta Livestock Protective Assn., was in Stony on Monday.

A very nice run of lantern slides was shown Friday evening under the auspices of the Y. P. S. in the local United Church. The affair was under the direction of Rev W J Whelan, and was greatly appreciated.

Stony merchants are shipping large quantities of eggs at the present time.

Rev Father O'Halloran held services on Sunday last at the Roman Catholic Mission at Carvel.

Holborn U.F.A. is holding a dance in its hall at Holborn tomorrow April 16. Helge Anderson's orchestra will be present.

On Wednesday next, April 21, in Edmonton, the Liberals of Alberta, in special conference, will select a leader for provincial affairs and prepare for the organization of the party in the coming election. One membered constituencies are permitted to send four delegates.

The card party given in Winterburn Hall on the 5th by the Ladies' Aid of St Joseph's Church, Spruce Grove, was patronized by a large crowd, who enjoyed themselves thoroughly. The sum of \$60 was netted. Following are the prize winners—Ladies—Mrs Peter Wilde, 1st; Mrs J Guenette, 2d; Mrs S Eccles, 3d. Mrs Ritchie, Con. Men's—Mr Zeigler, 1st; W Guenette 2d; Ph Alt 3d; L Gagne, Con.

Last Tuesday evening there was a delightful gathering of friends at the home of Mr and Mrs Murd McKinlay, the occasion being the celebration of Mr McKinlay's birthday. Cards, music and dancing were indulged in, after which a lovely lunch was served by Mrs McKinlay and daughters Miss Sarah and Miss Annie. The following guests wished Mr McKinlay "many more of them": Mr and Mrs Ben Powell and family; Mr and Mrs J F Clarke; Mr and Mrs S C Elliot; Mr and Mrs T Scott and sons; Mr and Mrs Tom Graden and family; Mr and Mrs F W Lundy; Mr and Mrs Ainer Anderson; Mr J M Kullander, Miss McLeod.

Stony Plain and District.

Mr and Mrs Robbins, of Red Willow, were visiting this week with their son Mr L Robbins, of the teaching staff of the local High School.

Miss Snider, the new teacher at the local school, took charge of her classes yesterday.

Manager Duthie of the local Bank, is convalescing, after being confined to his house with an attack of quinsy.

J Miller shipped a car of potatoes this week.

Died—In Edmonton, Monday April 12, Mrs G W Simpson, mother of Miss Margaret Simpson, teacher at the local school.

Miss Lottie McLeod of Daley, a former teacher at Comet school, spent Easter holidays at the M McKinlay Ranch.

Mr and Mrs Val Kulak Jr. returned last week from a winter's vacation spent on the Coast, and have taken up their residence at South Edmonton Beach.

Mr J A Barrie, the popular proprietor of the Edmonton Beach resort, was in Stony yesterday. Mr Barrie had just emerged from the hospital where he had been undergoing a long siege of sickness.

Joe Dittich of Edmonton has purchased the quarter-section sw. 25-52-1w5, from Mr Wm Mayer.

While Mr Pete Baron was driving a friend in his McLaughlin car down to Golden Spike last week he had the misfortune to have the car slip off a grade and turn over, pinning Pete underneath. The friend hustled off for help, to release Pete. It was an hour before this was accomplished. The car escaped injury, as did Pete.

Duffield Notes

Mrs Hollingridge is under the doctor's care this week, with an attack of influenza.

Mr Van Soeiver, the well-known cattleman and an old resident of this district, died in an Edmonton hospital after a lingering illness. The remains were taken here for burial, which occurred yesterday.

Mr and Mrs Willison and family, newly arrived from the old country, have been located on a farm down by the river.

Mr John Ilsen was taken to an Edmonton hospital this week, suffering from rheumatic fever.

The farmers hereabouts are gradually getting on the land for farming operations, and there is every prospect now for a good season.
